GLS Institute Of Commerce, Ahmedabad Jun 2021 – May 2024
- Higher Secondary School**
Vedant International School, Ahmedabad May 2019 – Mar 2021
Chose Commerce as the field of study with a strong focus on management and business fundamentals.
- Secondary School**
Anand Niketan Maninagar, Ahmedabad May 2019
 - Developed leadership and organizational skills through various school activities.
 - Excelled in subjects related to business management and financial principles.

Projects

Car Rental Website (Django MVT)

- Developed a fully functional car rental website with Login/Signup, Lessor & Customer modules.
- Lessor Side: CRUD operations for uploading, updating, viewing, and deleting rental cars. Lessor can accept/reject leasing requests and view earnings.
- Customer Side: Can book cars, manage their profile, use the forgot password feature with OTP email verification, and pay via Razorpay API (test version).
- Order summary with invoice generation & download functionality.
- Integrated Django Admin Panel for streamlined management.

Insurance Website (Django MVT, MySQL)

- Built an insurance management system with three roles: Admin, Customer, and Insurance Company.
- Admin: Can accept, reject, and delete insurance policies.
- Customer: Can browse, buy insurance policies from different providers.
- Insurance Companies: Can upload, update, and manage their insurance schemes.
- Used MySQL database for efficient data storage and retrieval.

Objective

Motivated B.Com graduate transitioning into full-stack development. Passionate about building robust backend solutions and enhancing frontend skills to develop innovative and impactful web applications.
